**Science:** Form a circle with fingers and thumb on both hands. Start with the main hand at shoulder height and other hand at waist height. Move first hand down in an arc, then move the other hand up in an arc then repeat first movement, as though pouring/mixing.

**Nature:** start with the pointer and middle fingers (of both hands) extended together from fist, with finger tips on cheeks. Draw both hands simultaneously forward on a downwards angle so that hands end in front of shoulders.
